### Our Mission

The Center for Career Planning educates students about the lifelong process of career development and engages them in exploration of their interests, abilities and values. Toward these ends, we tailor services to the individual needs of students, provide resources for career planning, and promote the value of a CNU liberal arts and sciences education. The Center also facilitates collaboration among students, alumni, employers, faculty, graduate school recruiters and the community in developing a diverse global network, which supports students' attainment of their career goals.

CENTER FOR  
CAREER PLANNING

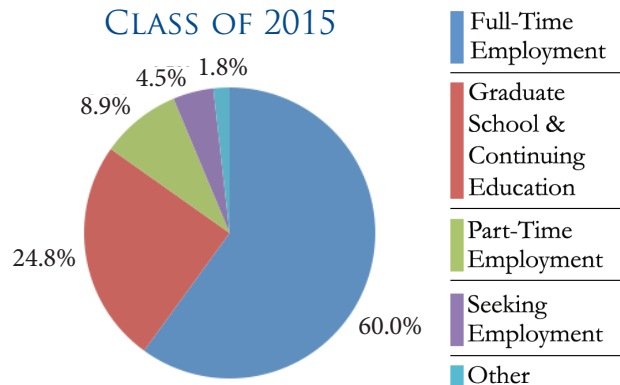

## CLASS OF 2015 CAREER OUTCOMES

Students at Christopher Newport University learn to lead lives of significance through rigorous and rewarding academic programs and co-curricular opportunities. Here the focus is on learning how to think, and graduates put this into practice in a wide range of fields, from business to computer science to foreign languages. An emphasis on leadership, civic engagement and honor across all campus endeavors fosters citizenship in students and prepares them to succeed in the workplace or in graduate or professional school.

CNU's Center for Career Planning offers a host of services for students and alumni, such as individual appointments, workshops, career panels, campus interviews and career fairs. These events expose students to a wide range of employers, from government agencies to international corporations. Christopher Newport alumni are always active representatives at these events, showing firsthand how their majors successfully translate to employment and graduate school.
