Vision
• To awaken and nurture highly talented composers, performers, and music educators committed to developing their abilities to their highest potential.
• To support study and celebration of music’s role in business, the arts, history, language, literature, math, science, and technology, unfolding music’s connection to all areas of human endeavor.
• To engage students of all disciplines in the study and performance of music, fostering a university culture of appreciation, curiosity, understanding, and joy.

Mission
The music program encourages all students who have a passion for music to participate in ensembles, courses, and events that broaden and enrich the understanding of music and its functions in culture and society. The music faculty strives to uphold the highest standards of scholarship and performance while placing as their top priority the education of each student. The music program offers a rigorous and comprehensive curriculum immersed in an academic environment rich in liberal learning. Students learn to form critical opinions, think, speak, and write clearly, and understand the structure, development, and performance of music from around the globe. And most important, students learn to embrace the truth that musicianship and scholarship are lifetime pursuits.

Goals
• To provide a rigorous and comprehensive curriculum in a university accredited and assessed by the National Association of Schools of Music and the Southern Association of Colleges and Schools.
• To provide music faculty and guest artists who are recognized experts in their field and who have a passion for teaching and scholarship.
• To accept high-achieving music majors who have the demonstrated skills, knowledge, and desire necessary to succeed in their chosen field.
• To provide all students a wide variety of musical ensembles, courses and events that enrich the cultural life of the University and the community.
• To provide students with additional opportunities for leadership, scholarship, and service through student music organizations.

Music Degrees

The Bachelor of Music degree is the initial professional degree in music. Its primary emphasis is on the development of the skills and knowledge necessary to function as a teacher, performer, composer, and scholar. The areas of concentration include choral music education, instrumental music education, composition, jazz studies, and performance.

The Bachelor of Arts degree in Fine and Performing Arts with a major in music provides a strong education in the liberal arts, irrespective of specific career aspirations. The major in music provides a fundamental knowledge of written and aural skills, the history and development of music, and performance. This degree serves individuals who seek a broad program of general education rather than intense specialization in the undergraduate years.

The Master of Arts in Teaching degree is offered with concentrations in choral and instrumental music education. Students accepted into the M.A.T. program graduate in four years with the Bachelor of Music degree with a concentration in either instrumental or choral music education and then complete an additional year of study leading to the M.A.T. degree and teacher certification (PK-12). For more information, see the CNU Graduate Catalog.

Assessment Procedures

The rigor of the academic curriculum of the music program at Christopher Newport University is ensured through a comprehensive curriculum, highly experienced and qualified professors, numerous assessment procedures, and accreditation by the National Association of Schools of Music and the Southern Association of Colleges and Schools.

Entrance Requirements

Acceptance is highly competitive, for the department admits each year approximately two majors per voice part or instrument. A student intending to matriculate in the music program at CNU must first satisfy all entrance requirements, including an entrance audition, interview, two professional recommendations by music educators, entrance examinations in music theory, ear training, keyboard, and acceptance into the University.

Degree Program Continuance Requirements

The major in music requires an enormous commitment of time and energy toward academic study, individual practice, and ensemble rehearsal. Although admission into the major is highly competitive, music majors who continue to experience significant challenges by the end of the first year should consider changing their major. Music majors are reviewed at the completion of their fourth semester for continuation in either the Bachelor of Music or the Bachelor of Arts degree program, referred to as, “Sophomore Check-Point.” The review committee consists of full-time music faculty members elected each year by the full-time music faculty. In order to be considered for continuation in the degree, the student must have earned a grade of C- or higher in the following courses: improvisation (MUSC 125), four semesters of music theory (MUSC 211-212, 311-312), music history (MUSC 303-304), and ear training (MUSC 209-210, 309-310). four semesters of keyboard skills (MUSC 115-116, 215-216/217 or APP PIAN 130), four semesters of applied music in the student’s major area of concentration, jury approval, four semesters of a major ensemble, four semesters of performance attendance (MUSC 012), ENGL 123, ENGL 223, two courses from the Area of Inquiry, successful completion of the Scales Proficiency Examination (instrumentalists) and the Piano Proficiency Examination, and a cumulative GPA of 2.5 or higher (2.9 for the B.M./M.A.T.). Factors such as the student’s progress in applied music lessons, demonstrated commitment to and enthusiasm for the field of study, and overall promise for success in the field and/or graduate study are considered, as well. The university is accredited by The National Association of Schools of Music and, therefore, is required to uphold national standards throughout the tenure of the student.

Graduation Requirements

In order to graduate, the music student must have successfully completed all requirements listed for individual concentrations (including all upper-level music courses, juries, and recitals) with a grade of C- or higher, the liberal learning curriculum, and have earned a score of 70 or higher on each of the exit examinations in music theory, ear training, music history conducting, technology and improvisation. The senior recital serves as the final assessment of a student pursuing performance, composition or jazz studies; student teaching serves as the final assessment of a student pursuing education; and the music capstone project serves as the final assessment of a student pursuing the Bachelor of Arts degree. The goal of graduating competent and competitive students is assessed through the student’s success in graduate school and chosen profession.
Applied Music Juries

Juries are held each semester to adjudicate the areas of improvisation, performance, and conducting. They serve as the semester examination and give students an opportunity to demonstrate their progress in performance skills to the applied music faculty. The applied music jury consists of the applied music faculty who teach in the area of the student’s concentration.
