Christopher Newport University's Summer Scholars Program is an eight week, in-residence, summer program for students and faculty to collaboratively work on a faculty-derived research question. Program participants (Student Research Fellows) work collaboratively with a CNU faculty member and are a part of a summer community of scholars. The goals of the program are to develop enhanced research and communication skills, provide opportunities to become better acquainted with Tribble Library's scholarly resources, and expand inquiry and problem-solving capabilities. Thanks to OURCA Summer Scholars Assistant Rachel Locke, OURCA Administrative Assistant Michaela Baux, and OURCA Student Fellow Olivia Brubaker.

We hope you enjoy the work of this year's Summer Scholars.

Dr. David A. Salomon
Director, Office of Undergraduate Research and Creative Activity
