How to fix address matching problems when ordering online

When entering the information into the IRS address matching system note the following:

- The address entered must match the address already on file with the IRS exactly.
- The address on file is typically the address on your most recent tax return.
- Spelling out the word "street" rather than using the abbreviation "st." can be enough to cause an error.
- Addresses on the IRS system are auto-corrected through a post office program and may not match what you put on your tax return.

We suggest the following if you run into problems:

- Have your taxes in front of you and enter the address carefully as it is on your return.
- If you entered your address as it appears on your return and it doesn't work, try using the standardized version of your address.
To get a **standardized version of your address**: 1) go to www.usps.com 2) Click Look Up a Zip Code 3) Enter Street Address, City, State 4) Click Find
- If you still have problems, the IRS.gov Website Help Desk can be reached toll-free at 1-800-829-1040, Monday - Friday 8:00 a.m. - 8:00 p.m. (Eastern Time).
