CNU Grads Earn More

Median Salary ($)

Source: HEA Dataset; Calculations by Dr. Rik Chakraborti. Figures show median annual earnings four years after graduation for federal-aid recipients who graduated in 2018 or 2019 and were working and not enrolled, expressed in 2024 dollars. For each field, the peer median is the middle value among other institutions' reported medians. The number of reporting peers varies by field.
